## Notice of Proposed Action

July 11, 2008

The Administrator, Division of Environmental Protection, Department of Conservation and Natural Resources, Carson City, Nevada is issuing the following notice of proposed action under the authority of the Nevada Revised Statutes and the Safe Drinking Water Act.

The Administrator has received an application to renew an Underground Injection Control (UIC) permit, which has been drafted for public comment. Renewal of permit #UNEV93215 has been applied for by the following applicant:

Rebel Oil Company  
2200 South Highland Avenue  
Las Vegas, Nevada 89102

The permittee has submitted an application to renew the UIC permit associated with Rebel Station #8, 3225 North Las Vegas Boulevard, Las Vegas, Nevada 89030. The original permit was in response to the release of petroleum hydrocarbons from the above-mentioned facility. The applicant proposes to continue remediation efforts utilizing the injection of hydrogen peroxide solution into the groundwater. The injectate should facilitate the biodegradation of the petroleum hydrocarbon contamination. Monitoring at the facility will be required to ensure that groundwater is not degraded.

On the basis of preliminary review of the requirements of the Nevada Revised Statutes and the Safe Drinking Water Act, and implementing regulations, the Administrator proposes to re-issue permit #UNEV93215 as stated above.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or to request a hearing pursuant to Nevada Administrative Code, Water Pollution Control, should submit their comments or request in writing by August 18, 2008 either in person or by mail to:
